Dear Families:

Charter Schools in North Carolina operate on approximately 75% of the per pupil funds that traditional public schools receive. For Pine Lake that equates to a little over \$1,000,000 annually. House Bill 539 goes a long way towards creating funding equity for charter schools. Please take just a moment to click the take action link below and let your representative know that you support this initiative that will have a positive impact on your child's education.
