Dr. Donna M. Beegle

NATIONAL POVERTY EXPERT

After growing up in generational migrant-labor poverty, leaving school at 15 to get married, and having two children while continuing to cope with poverty, Donna Beegle found herself—at 25—with no husband, little education, and no job skills. With the support of people who connected her to resources and opportunities, she obtained her GED and—10 years later, her Doctorate in Educational Leadership. For 31 years, Dr. Beegle’s work and research has focused on what works to break poverty barriers to education success. Her lived experiences along with her research provide groundbreaking insights and tools for helping leaders to create responsiveness inclusive and equitable education systems that improve outcomes for students of all races who are impacted by poverty.

Dr. Beegle serves as president of Communication Across Barriers, a consulting firm dedicated to building poverty-informed communities that are armed with tools to improve outcomes. Dr. Beegle speaks, writes, and trains with students and adults in poverty, as well as leaders and professionals in all sectors who want to make a difference. She has worked in all 50 states and six countries and has received numerous awards including, Speaker of the Year for the New Mexico Bar Foundation, being selected as a Princeton Fellow, and having two community classrooms at Portland State University named in her honor. She is the author of four books/curriculum kits, including, “See Poverty...Be The Difference” and “An Action Approach for Educating Students who live in Poverty.” Dr. Beegle is also the founder of the Opportunity Community/ Opportunity Community Model which provides the foundation for a community-wide poverty-informed approach to addressing poverty barriers to education success. Recently, she was selected to co-produce the new PBS show “Opportunity Knocks,” and serve as a poverty expert for the Netflix show “Sentenced” which illuminates the millions of students and families in American who can not read or write a complete sentence. Dr. Beegle says fighting poverty is more than work to her. She knows too much to be quiet.
